May 2005-Oct 2006

The Global Environment Facility (GEF) International Waters Learning Exchange and Resource Network (IW-LEARN) has included INWEB as a core partner in a project to test and evaluate new approaches and ICT tools to meet international waters stakeholder needs in SEE and the Mediterranean. The project will organize capacity building workshops for senior officials, decision-makers and experts and facilitate an internet-based information network establishing a community of practice on transboundary water resources management in SEE.
