

During the months of April and May the INWEB co-ordinator, Professor Jacques Ganoulis of the Aristotle University of Thessaloniki, plans to visit each of the national centres. Wherever possible he will be accompanied by Professor Jean Vergnes. The purpose of the visit is to discuss local priorities and organisational issues of INWEB, to meet representatives from the relevant local authority or Ministry and inform them about INWEB, and to hold discussions with other institutions interested in being included in the INWEB network via the national centres.
