

9th-14th August 2009, Vancouver, Canada

The 33rd International Association of Hydraulic Engineering & Research (IAHR) Biennial Congress will be held in Vancouver, Canada from 9-14 August 2009. It is an important international industry event themed “Water Engineering for a Sustainable Environment,” and focuses on the central roles of hydraulic engineering and hydroinformatics in water engineering for a sustainable environment, and how these roles link to broader aspects of environment sustainability in watershed and coastal settings.
