

5th-8th October 2011, Kalavrita, Greece

The 9th International Hydrogeological Congress will focus on the management of the aquatic environment and is hosted by the [Hellenic Committee of Hydrogeology](#). The Congress is aimed at scientists, students, governmental officials and specialists dealing with groundwater and environment. Its main goal is the exchange of ideas, knowledge and experience in terms of a sustainable aquatic environment.

The main topics of the Congress are:

- Water bodies and ecosystems
- Climate change and water bodies
- Water quality and agriculture
- Interaction of surface and ground waters
- Karst hydrogeology
- Continuous media hydrogeology
- Hydrogeology of fissured Rocks
- Hydrochemistry
- Geothermy and thermal waters
- The role of water in civil engineering projects
- Hydrology
